MINI - 78 DRAINAGE

MINI 78 ***Load Classes: A15 - B125***

The Polycon MINI 78 channel is manufactured from High Density Polyethylene (HDPE) which has a high resistance to temperature changes which make them ideal for all types of domestic applications. The small design of the MINI channel with the many grate options it has available makes it ideal for projects that require a degree of versatilty and lends it's self to a more discreet look compared to heavier channels and their grating options. Due to the lightweight nature of the design and click in gratings this ensures a quick and easy installation aswell as providing a completely discreet and minimal look.

Features & Benefits

- *Collects water and quickly discards*
- *Lightweight*
- *Chemical Resistant & Rust Proof*
- *Full range of Accessories including 'T' pieces, angles, outlets and end caps*
- *Discreet & Minimal Design*
- *Simple to cut with a mitre saw*
- *Easy to install - does not require trenches*
- *Provides water-tight & secure protection*
- *Non directional design mitigates the need for right or left hand fittings*

Applications

- *Driveways*
- *Patios*
- *Garden Paths*
- *Houses*
- *Playgrounds*
- *Pool Areas*
- *Pedestrian Areas*

Conformity
