Service . Range . Knowledge

## Welcome To **Polycon**

Polycon is identified as one of the leading manufacturers, distributors, and suppliers of channel drainage in the UK. We focus on creating a diverse range of water solutions, in various materials, including composite, polymer concrete, SMC, and steel.

Polycon's unique look at the market and expert knowledge of the industry ensures we can supply a wide range of high-quality products suitable for any application. This includes building drainage, landscaping, sports facilities, distribution centres, highways, and airports.

Our design team provides innovative and efficient hydraulic solutions to ensure we can offer your drainage needs the best product/ solution. We have a vast and experienced overview of our working industry and have been manufacturing, distributing, and selling channel drainage for over 8 years. We thrive on acting upon your feedback to improve and develop our products to fit flawlessly with the constantly changing market and demand from our customers. At Polycon we focus our attention on professionals who sit within the construction industry, targeting our products to specifiers, architects, engineers, and contractors. Therefore, we understand the importance of expanding our product portfolio to create the most efficient surface water drainage systems.

We are a dynamic and evolving company with a focus on quality, innovation, and service. As a result, you can rely on us to handle your project needs in every way to the best of our ability.

### **PEGASUS** Channel

The Pegasus Drainage system is designed with a streamlined profile, ensuring efficient water flow and the prevention of water build-up or pooling, keeping your property safe and protected. The channels design and shallow profile facilitate a straightforward installation, reducing labour time and costs. Additionally, its grating is easily removable for maintenance purposes, ensuring a hassle-free upkeep and cleaning process.

The Pegasus channel boasts a sleek and modern design, allowing you to create an eye catching environment. Due to its unobtrusive appearance, the Pegasus channel complements the surrounding landscapes whilst effectively performing its drainage function. At Polycon we are committed to maintaining high industry standards, ensuring that the Pegasus drainage channel meets all necessary regulations and quality requirements

### Load Class

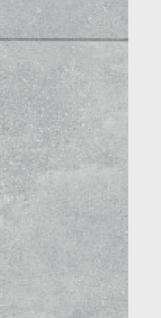

A15 1.5 tonnes

### **Applications**

- Patios
- Porcelain Paved Areas
- Paved Areas
- Natural Stone

Not sure what you are looking for? Check out our Pegasus systems against multiple paving backgrounds on our virtual landscape feature. You can mix and match gratings against multiple backgrounds to achieve the ultimate desired look. Each visual can be downloaded as a PDF and sent to customers along with a technical overview of your chosen system. Try today at www.polycon.co.uk.

# **PEGASUS** Channel - Overview

#### Material

The Pegasus channel base is made from a strong yet lightweight composite material. This makes for an easy installation whilst ensuring a reliable solution that can withstand pedestrian traffic. The system comes as a complete composite system unless it is paired with the stainless steel Dot or Wave grating tops.

#### Outlet

49mm

**Grating Options** 

aesthetic look when installed.

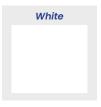

The Pegasus system has a total of 6 compatible

grating options that can withstand an A15 load. These range from composite to stainless steel. The composite gratings are available in black, white, grey, and sand. The Dot and Wave gratings are stainless steel and provide a more obvious

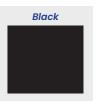

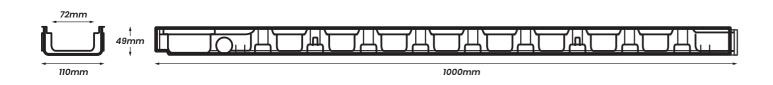

The Pegasus Channel has a 60mm knockout on the bottom of the channel, allowing you to attach a vertical outlet, which then connects to external underground drainage pipes.

## **PEGASUS** Channel - 49mm

The Pegasus Channel is one of the shallowest channels in the industry with a depth of just 49mm. This makes it ideal for any urbanised areas where there is limited room for excavation. This Channel has a load class for A15 (1.5 Tonne) and is suitable for urban and domestic areas where slow-moving traffic and pedestrians will be traveling across the channel.

### **Accessories**

- End Caps
- End Cap Outlets

#### End Cap Outlets

End Cap Outlet can be used at the end of the run to allow water to be taken to your exterior drainage pipes and away from the channel.

#### End Caps

End caps for the Pegasus Channel can be used at the end of your channel run to stop the flow of water.

#### Accessory - Specifications
